MONTANA LABOR MARKET

Monthly Review of
EMPLOYMENT OUTLOOK, LABOR SUPPLY, LABOR DEMAND, CURRENT EMPLOYMENT

MONTANA STATE EMPLOYMENT SERVICE

Division of Unemployment Compensation Commission of Montana

Edgar H. Reeder, Chairman

Howard N. Hebert, Commissioner

UCC Building — P. O. Box 1728 — Helena, Montana

James J. Flaherty, Commissioner

FL 235.

OCTOBER, 1962

September Employment Highest of Record

September employment in Montana's non-farm industries was highest of record for that month. Estimates by the Commission in cooperation with the U.S. Bureau of Labor Statistics show that 177,300 wage earners received paychecks from the state's industrial employers at mid-September. Employment, although down seasonally by 700 from August, was still 2,700 above September a year ago. The highest previous September non-farm employment figure was in 1956 when 177,200 wage earners were employed. Evidence that August is the peak employment month is seen in the final figure which reveals that non-farm employment reached 178,000 at that time, 20,000 above the seasonal low point of last February.

Seasonal Declines Normal

Normal seasonal declines common to the Montana labor market at this time of the year failed to dim the over-all employment picture. Seasonal aspects of the current employment estimates find the largest numerical change in the trade and service industries. The end of the tourist season and closure of facilities at national parks and other resort areas were chiefly responsible for reducing employment in the service industries by 600 and in trade segments by 400 from August payrolls. Employment in these two groups, however, was up 500 and 300 respectively from September, 1961.

Contract construction continued to be an active force on the state labor market scene. Construction payrolls, at 16,100, were up 1,100 from last year. The August to September decline was a scant 300 and came

Economic Directions Show Good Trends With Only Moderate Change In Employment Levels

Labor market patterns in Montana carried over from August to September with only mild declines in those areas which are normally subject to seasonal pressures. The employment decline between August and September this year at 700 was substantially less than the 2,000 drop between the same period last year, and a 2,900 decline between August-September, 1960. Better economic conditions this year are reflected both in high employment levels and a substantial drop in the number of unemployment claims. There were also nearly 2,900 fewer jobseekers registered at the state's twenty-two local employment offices this September than last. Employment trends during the next two months are expected to be above average if favorable weather continues.

chiefly as the result of completion of work at missile site areas. Most of these furloughed workers went on immediately to missile site work in Wyoming and North Dakota. The start of new construction projects in Montana absorbed the others. Construction employment will continue at high levels as long as favorable weather holds.

Butte and Anaconda Optimistic

There was a new feeling of optimism in Butte and Anaconda after settlement of the Butte Teamsters labor dispute. All smeltermen with seniority rights were back on the job at the Anaconda smelter. Open pit and underground mining at Butte was back to normal, and there was demand for qualified and experienced hardrock miners. The brighter outlook immediately communicated to trade and service channels. Main street merchants are predicting a good holiday buying season. The selection of Butte as a 3-state distribution center by an electrical manufacturing firm will create more new jobs. Construction of a new warehouse is now in progress and scheduled for completion in November.

Logging and Lumbering Active

There was a healthy pace of activity in the timbered areas of the state during September. Shortages of skilled woodsmen and loggers persisted in many areas, including Livingston and White Sulphur Springs. Mill operators were stockpiling logs to permit operations during the winter months and the regular spring breakup period when logging operations are reduced substantially. A new plywood mill at Libby was dedicated during September. It will create 150 new jobs and add a one million dollar payroll annually to the region.

Sugar Beets and Christmas Trees

Several thousand workers will be employed in these two seasonal activities during the next three months. Sugar beet refineries at Billings, Hardin, Missoula, and Sidney will keep more than a thousand plant workers employed for season runs of from 60 to 120 days. The Christmas tree harvest is now underway in the northwestern section of the state. Cutting, sorting, grading, manufacture of decorative rope and wreaths, and shipping will occupy about 1,000 workers until early December.

LABOR TURNOVER RATES IN MANUFACTURING AND MINING INDUSTRIES (per 100 employees)

(Compiled in cooperation with U.S. Bureau of Labor Statistics)

INDUSTRY	ACCESSION RATE						SEPARATION RATE								
	Total			New Hire			Total			Quit			Layoff

1) Preliminary rates based on all data available at publication time. 2) Figures revised on more complete returns

3) Excludes sugar and canning industries. Total separations include discharges and miscellaneous separations.

Along the Hiring Line— Field Summary Oct. 1

ANACONDA, Deer Lodge, Philipsburg—(221 jobseekers, 52 new, 132 men, 89 women.) Economic outlook has brighter aspects with settlement of Butte labor dispute. Work resumed in all units of smelter; all smeltermen with seniority rights now employed. Most railroad workers also back at work. Farm labor demand up with start of potato harvest.

BILLINGS, Columbus, Hardin, Hysham, Laurel, Red Lodge, Roundup—(1,605 jobseekers, 660 new, 998 men, 607 women). Wide-spread activities in industry and farm highlighted the September labor market picture. Good volume of heavy and building construction in force. Yellowtail dam work force expanded to 500. Brisk trends prevail in trade and service units. Sugar beet refineries at Billings and Hardin starting season's runs employing 1,000 workers. Harvest of 35,000 acres of sugar beets highly mechanized with labor demand mostly for truck drivers and topper operators. Corn and other vegetable canning completed idling 150 seasonal workers. Labor supply and demand nearly in balance.

BOZEMAN, Ennis, Three Forks, Trident—(206 jobseekers, 217 new, 69 men, 137 women). Highway and building projects making good progress. Lumber industry trends good with major sawmill working 145 men. Logging employment at peak levels. Steady trends in trade and service establishments. Haying and potato harvest provided most new farm jobs.

BUTTE, Virginia City, Whitehall—(1,126 jobseekers, 144 new, 761 men, 365 women). Underground and open pit mining now in full operation after settlement of 9 week teamsters labor dispute. During period of mining shutdown, little hiring was in evidence except in construction. Construction force at copper concentrator plant now totals 700. Main street hiring still slow but upswing seen as holiday season approaches.

CUT BANK—(188 jobseekers, 112 new, 136 men 52 women). Good hiring trends in both industry and agriculture during September. Registered jobseekers 28% below last year with unemployment claims 40% less than in 1961. Favorable weather kept construction employment at good volume. Farm hiring up substantially from last year.

DILLON—(79 jobseekers, 50 new, 52 men, 27 women). Good trends continue in industry and farm with labor supply and demand in balance. Construction of earth filled dam on 2 shifts with work scheduled to continue through winter months if weather permits. Building projects include new

LABOR MARKET INDICATORS

	Sept. 1962	Aug. 1962	Sept. 1961	Sept. Avg. 1953-62
Employment—				
Industrial Employment	177,300	178,000	174,600	170,660
New Job Applicants	3,893	4,136	3,739	3,462
Job Applicants, 1nd of Month	7,138	7,460	9,996	5,985
	Oct. 5 1962	Sept. 9 1962	Oct. 6 1961	Avg. 1st Oct. Wk. 1958-62
Insured Unemployment, Week of				
New and Renewal Claims	495	451	892	863

Total Unemployment Claims	2,493	3,309	4,014	4,171

drive-in bank and church. Farm hiring for variety of activities.

GLASGOW, Fort Peck, Malta, Opheim—(220 jobseekers, 133 new, 89 men, 131 women). Completion of some air base projects idled 50 workers but most hired for other jobs including 60 unit low rental housing development. Most skilled craftsmen employed. Employment in trade and service at normal levels. Active hiring trends in agriculture.

GLENDIVE, Circle, Wibaux—(98 jobseekers, 56 new, 46 men, 52 women). Job placements higher than last year with most of the gain in construction and oil field work. Work on building and highway projects on good schedule. Very little hiring in main street establishments. Farm hiring good but not up to expectations.

GREAT FALLS, Choteau, Fort Benton, Stanford—(908 jobseekers, 693 new, 501 men, 407 women). New job applications more than last year due to missile site construction layoffs, college students registering for part-time employment, and heavy in-migration of transient workers. September labor demand largely in trade and construction fields. Seasonal layoffs evident in service industries. Farm job placements at good levels.

HAMILTON, Stevensville—(92 jobseekers, 59 new, 47 men, 45 women). Labor market trends continue generally active in both industry and farm. Construction volume higher than past few years and includes new bank, public health service building, and school improvement project. Lumber and logging holds at good pace. Farm hiring chiefly for sugar beet and potato harvests.

HAVRE, Chinook, Harlem—(130 jobseekers, 101 new, 90 men, 40 women). Economic outlook brighter this year with more construction and improved farm picture. Major construction includes \$2 million high school and two radar base projects totaling \$700,000. New \$140,000 super market scheduled for completion late Oc-

tober. Trade and service employment expected to continue steady throughout the holiday season. Farm labor demand down.

HELENA, Boulder, Garrison, Townsend, White Sulphur Springs—(323 jobseekers, 224 new, 169 men, 154 women). Good hiring trends hold in all industry groups. Worker shortages remain in clerical, sales, and lumber classifications. Construction employment at high levels with some shortages of carpenters at times. New projects include \$350,000 high school addition and \$150,000 motel expansion. Main street business good with higher volume expected next three months. Steady labor demand on the farm front.

KALISPELL, Columbia Falls, Eureka, Libby, Whitefish—(521 jobseekers, 242 new, 338 men, 183 women). Some seasonal employment declines occurred in trade, service, and some phases of lumber manufacturing during September. Logging employment at high levels as mills stockpiled logs to carry through winter and spring breakup period. Construction continues on good schedule. Christmas tree harvest to employ 300. New Libby plywood mill will create 150 new jobs.

LEWISTOWN, Harlowton, Ryegate, Winnett—(80 jobseekers, 119 new, 38 men, 42 women). Job placement up 18% over August with most September hiring in construction and trade industries. Bulk of construction centered in missile site areas with radar installation, preparation of silos for missile installation and access road building the chief activities. Sharp seasonal decline in farm hiring.

LIVINGSTON, Big Timber—(102 jobseekers, 56 new, 48 men, 54 women). Employment at high levels in most industry groups. Some seasonal declines noted in trade and service as most Yellowstone Park facilities closed for season. Lumber industry picture looks good with employment 25% over last year. Main street employment up appreciably over last year.

NINE YEARS OF MONTANA INDUSTRIAL EMPLOYMENT TOTALS, BY MONTHS (in Thousands)*

*Estimate based on the basis of more complete and accurate figures for industry segments not covered under the Unemployment Insurance Program. **Preliminary Estimate.

Along the Hiring Line— Field Summary Oct. 1

MILES CITY, Baker, Ekalaka, Broadus, Jordan, Terry—(95 jobseekers, 103 new, 29 men, 66 women). Most highway construction nearly complete with little demand for additional help. Main street business fairly good with slight declines in some establishments. Farm labor demand below last year but labor turnover less this year.

MISSOULA, Drummond, Arlee, Superior—(684 jobseekers, 592 new, 427 men, 257 women). Over \$11 million in highway and building construction in progress. Call for bids for construction of new bank expected during October. Trade channels fairly active but with some decline in service industries as tourist season ends. Employment in manufacturing, transportation, and utility firms shows improvement over last year. Sugar beet refining employing 370, 62 more than last year, will extend through first of year.

POLSON—(137 jobseekers, 63 new, 92 men, 45 women). Economic patterns better than last year as stable payrolls in construction, sawmill, and plywood plants continue. Seasonal cut-backs in irrigation service personnel idled 40. Potato, sugar beet, and Christmas tree harvests employ 450 workers.

SHELBY—(159 jobseekers, 78 new, 114 men, 45 women). Area economy feels pinch of poor crop conditions and lack of major construction projects. Construction of some building projects pending but no definite start dates. Farm hiring down substantially due to poor harvest.

SIDNEY—(31 jobseekers, 57 new, 7 men, 24 women). High employment levels maintained through September with most labor demand from construction and manufacturing industries. Good agenda of building construction on schedule. Sugar beet campaign began September 21 employing 470. Good farm labor trends with demand exceeding supply.

THOMPSON FALLS, Hot Springs—(78 jobseekers, 45 new, 52 men, 26 women). Employment generally at good levels with few exceptions. Seasonal reduction cut forest service crews by one-half. Lumber mills and logging crews operating at peak capacity. Farm labor demand practically nil.

WOLF POINT, Plentywood, Scobey—(55 jobseekers, 37 new, 33 men, 22 women). Unemployment at lowest level of the year. Shortages of farm workers existed entire month. Slight rise in construction employment chiefly for home building. Main street employment unchanged. Stacking of two oil rigs and completion of oil exploration contract idled 50 men.

ESTIMATED EMPLOYMENT IN NON-AGRICULTURAL INDUSTRIES IN MONTANA (1)

(1) Estimates include all full and part-time wage and salary workers who worked or received pay during the pay period ending nearest the 15th of the month. Proprietors, firm members, personnel of the armed forces, domestic servants, and self-employed persons are excluded.

(2) Preliminary estimates based on return from samples of 862 selected Montana establishments.

(3) Figures previously released have been revised on return from 1,370 such establishments.

(4) Includes fabricated metal products, machinery except electrical, furniture, stone and clay products.

(5) Includes apparel, chemicals, and miscellaneous manufacturing products.

(6) Includes commercial trade schools, auto repair services and garages, miscellaneous repair services and hand trades, motion pictures, amusements and recreation, medical and health, law offices and professional services, non-profit membership or-

ganizations and businesses not otherwise classified

(7) Same as (6) above. Also includes finance, insurance, real estate and mining.

(8) Same as (6) above. Also includes mining.
